

## Little Ninja's Privacy Policy

Little Ninja is committed to maintaining the trust and confidence of its clients and the visitors to this web site. We will not sell, rent or trade any information gathered with any other companies or individuals. This privacy policy outlines our commitment further: what information is collected, how it is stored and how we use it.

### **This website:**

This website does not collect any information from you or store any cookies\* on your computer.

### **The information Little Ninja does store:**

The only information we may store is the contact details of our past or present clients, for communication purposes. If you are one of these clients, please be assured that we do not share your personal details with any other company without your consent. You are entitled to view, amend, or delete the personal information that we hold. Please email your request to [helen@little.ninja](mailto:helen@little.ninja).

### **Our Hosting**

All our websites are hosted by Easyspace. You can find out more information about the security and technical specifications of the server here, on Easyspace's website:

<https://www.easyspace.com/dedicated-servers/infrastructure>

Easyspace's privacy policy can be found here: <https://www.easyspace.com/terms-and-conditions>

### **Domain names**

Most of the domain names registered by Little Ninja are held by DNSimple, a US based company. Their privacy policy can be found here: <https://dnsimple.com/privacy>

Those domains that are not registered through DNSimple have been registered through 123-Reg. Their privacy policy can be found here: <https://www.123-reg.co.uk/terms/privacy.shtml>

This privacy policy was last updated on 25<sup>th</sup> May 2018

#### **\* What is a cookie?**

Cookies are text files containing small amounts of information which are downloaded to your personal computer, mobile or other device when you visit a website. Cookies are then sent back to the originating website on each subsequent visit, or to another website that recognises that cookie. Cookies are useful because they allow a website to recognise a user's device.
